PROFESSIONAL SUMMARY

Tech-driven innovator passionate about AI, fintech, and problem-solving. With hands-on experience across startups and engineering projects, building practical, high-impact solutions that blend intelligence and usability. Constantly exploring emerging technologies, aiming to create tools that empower people, enhance systems, and shape a smarter digital future.

EDUCATION

| | |
|---|-----------------|
| Bachelor of Technology (Artificial intelligence) | 2024 - 2025 |
| Newton School of Technology, Rishihood University | Grade: 8.5/10.0 |
| Intermediate (Class XII) | 2023 - 2024 |
| Bhavans Gangabux Kanoria Vidyamandir | Grade: 91.0% |
| Matriculation (Class X) | 2021 - 2022 |
| Bhavans Gangabux Kanoria Vidyamandir | Grade: 93.0% |

EXPERIENCE

| | |
|----------------------------|-------------------------|
| Sponsorship Manager | March 2025 - April 2025 |
| Neutron | <i>Sonipat</i> |

- Secured sponsorship proposals worth **Rs.2.5L+** across 12+ corporate connections.
- Enhanced negotiation, communication, and outreach strategies.

| | |
|--|----------------------------|
| Million Dollar Round Table Member | February 2025 - March 2025 |
| Aditya Birla SunLife Insurance | <i>Kolkata</i> |

- Helped clients with wealth planning, insurance mapping, and long-term financial safety.
- Closed policies worth **Rs.50L+** during MDRT qualification cycle becoming the youngest MDRT qualifier.

INTERNSHIPS

| | |
|---|-------------------------|
| AI/ML Engineer and Data Annotation | June 2025 - Present |
| Rashtram School Of Public Leadership | <i>Sonipat, Haryana</i> |

- Built "Rashtram AI" — a RAG-based system that processes and simplifies government policies, bills, and acts for public understanding.
- Engineered retrieval pipelines, embeddings, and structured outputs to explain policy impact on daily life.
- Developed a meaningful use case for UPSC aspirants by generating simplified, accurate interpretations of complex legal documents.

| | |
|--|--------------------------|
| Hiring Research and Strategy Intern | February 2025 - May 2025 |
| Rishihood University | <i>Sonipat</i> |

- Built a college-wide student analytics model to record certifications, academics, experience, and daily progress.
- Improved hiring insights by **30%** using skill-based mapping and talent scoring.
- Conducted research for talent development frameworks.

PROJECTS

| | |
|---|---------------|
| FinNews (Github) (Demo) | November 2025 |
| Tech Stack : React.js, MongoDB, Node.js, Tailwind, Render Cloud, Vercel | |
| Full-stack finance news platform with author-driven content publishing. | |

- Built complete frontend, backend, and database with separate deployment pipelines.
- Implemented author role for adding and managing news articles. Enabled users to read, interact, and discuss articles through comments and engagement features.

- BeWise ([Github](#)) ([Demo](#))

Tech Stack: React.js, Tailwind, GitHub API, Vercel, Firebase, Wordpress

- Developed a comprehensive travel planning tool that enables users to set trip budgets and track all expenses effortlessly. Implemented real-time expense logging with clear breakdowns of total spending, remaining budget, and category-wise insights.
 - Built with a modern, responsive UI and reusable React components to ensure a smooth, intuitive user experience across devices. Designed to help travelers plan smarter, avoid overspending, and maintain complete financial clarity throughout their journey.
- FinScope ([Github](#)) ([Demo](#))

Tech Stack: Next.js, Tailwind, GitHub API, Vercel, Financial Calculations

- Built a versatile finance tool that helps users calculate and compare returns across multiple investment methods, including SIP, gold, and other asset classes.
 - Designed an intuitive dashboard that computes ROI using dynamic formulas and visual breakdowns.
- Snake Game ([Github](#)) ([Demo](#))

Tech Stack: ReactJs, Javascript, Tailwind, Vercel, Data Structures

- Developed the traditional snake game using pure JavaScript logic with grid-based movement and collision detection.
 - Built a simple, clean UI to replicate the nostalgic gameplay experience while maintaining responsive controls. Implemented dynamic score updates and smooth rendering for continuous gameplay.

CERTIFICATIONS

- Open Source Contributor Hacktoberfest ([Link](#))

Contributed 15+ high-quality PRs across reputable open-source repositories in the past two years, earning the SuperContributor badge along with multiple complimentary badges for code quality, consistency, and community engagement.
- Inner Engineering Isha Foundation ([Link](#))

Completed a 13-day guided program focused on inner well-being and mindfulness. Developed improved focus, emotional resilience, self-discipline, and mental clarity through yogic practices and guided awareness sessions—enhancing both personal balance and professional decision-making abilities.

SKILLS

Computer Languages: JavaScript, CSS, Python
Software Packages: MongoDB, MySQL, Express JS, Node.js, React, Prisma ORM, Next.js, Next JS
Additional Courses: Data Structure
Soft Skills: Critical Thinking, Decision-making, Time management, Interpersonal communication
Others: GitHub Actions, Email Marketing, Entrepreneurship, Firebase

EXTRA-CURRICULAR ACTIVITIES

- Clan Leader**
Event Organizer (School): Led and organized 10+ inter-clan competitions, strengthening leadership, coordination, and interpersonal communication.
- Tech Fest Organizing Committee — NEUTRON:** Managed sponsorship outreach, event planning, and cross-team coordination, contributing to successful fest execution.
- National Integration Camp Volunteer:** Participated in community-building initiatives, fostering discipline, teamwork, and cultural awareness.
- Finance**
Investment Enthusiast: Actively manages personal investment portfolio and researches market trends to build financial literacy.
- Public Relations**
Sponsorship Experience: Engaged with brands, negotiated deals, and built long-term relationships during college fest sponsorship drives.
